

ClimateWatch
an initiative of Earthwatch Institute

How to ClimateWatch

Setting up your ACCOUNT

- Do you want a person account?
- Or are you registering as a work/school group?
- Work/school groups have one log in that can be accessed by multiple devices simultaneously

Making your very first SPOT

- Use the camera icon to take a photo
- Select the taxa group and specific species
- How many individuals have you spotted?
- What behavior or phenophase?
- Are you on a ClimateWatch trail?
- Anything more you would like to share?
- SUBMIT! You're officially a ClimateWatcher!

Tips for making a great SPOT

- Make sure you use your own photo
- Show as much detail as possible
- For a plant show the flower, seed or leaves
- For an animal show its colours or facial features
- Make sure you don't disturb the plant or animal!

Deepen Your EXPERIENCE

- Enjoy the social features of the app
 - Make spots and receive award badges
 - Follow friends, like and comment on spots
 - Add your own photo to an existing spot to provide a time-series update
- Find your local ClimateWatch trail
 - Engage with your local flora and fauna
 - Provide critical repeat data!
- Get to know your local ClimateWatch species
