

Sweet Scented Wattle *Acacia suaveolens*

When to look:
*Autumn through
spring*

Evergreen
shrub. Grows
0.3-3 m high

Pale yellow to
white, ball-
shaped flowers

Narrow, straight,
blue-green leaves
that grow at right
angles to stem

Similar species:

Flinders Ranges or Willow-
leaved Wattle (*Acacia*
iteaphylla): a bushier shrub
up to 4 m high, with longer
seed pods (5 - 13 cm long).

Seed pods are
oblong, flat,
straight-sided and
bluish in colour
